

ROLL-UP 100 x 200 cm TEMPLATE

You can use this file as an additional layer in your design program. Do not forget to make it "invisible" of the template before saving your design as a PDF in high resolution, or you can simply delete it once the design is finished.

← Measure with 5 mm blood included (101 cm x 211 cm)

← **FINAL SIZE (100 x 210 cm)**

This is the final size of the roll up and where the printing is cut. To avoid white areas, we recommend that the background design and images exceed the cutting area by adding 5 mm of blood.

← **Security zone (98 x 199 cm)**

At least 1 cm from the cutting lines and 10 cm from the base. This will prevent important parts from getting lost when cutting.

↑ NOT printable zone of 10 cm ↓
