ROLL-UP 150 x 220 cm TEMPLATE

You can use this file as an additional layer in your design program.

Do not forget to make it "invisible" of the template before saving your design as a PDF in high resolution, or you can simply delete it once the design is finished.

Measure with 5 mm blood included (151 x 221 cm)

FINAL SIZE (150 x 220 cm)

This is the final size of the roll up and where the printing is cut. To avoid white areas, we recommend that the background design and images exceed the cutting area by adding 5 mm of blood.

Security zone (148 x 219 cm)

At least I cm from the cutting lines and IO cm from the base. This will prevent important parts from getting lost when cutting.
