

BUSINESS CARD TEMPLATE 85 x 55 mm

You can use this file as an additional layer in your design program. Do not forget to make it "invisible" of the template before saving your design as a PDF in high resolution, or you can simply delete it once the design is finished.

Measures with bloods included (91 x 61 mm)

FINAL SIZE (85 x 55 mm)

This is the final size of the card and where the printing is cut. To avoid white areas, we recommend that the background design and images exceed the cutting area by adding 3 mm of blood.

Security Zone 3 mm (79 x 49 mm)

At least 3 mm of the cutting lines.
This will prevent important parts from being lost when cutting in the guillotine.

SPECIAL FINISHING LAYER

UVI, Stamping Gold, Silver, etc.

We recommend leaving a safety margin for special printing finishes at least 1 mm from the cut.
