

FLYER TEMPLATE 148 x 210 mm

You can use this file as an additional layer in your design program. Do not forget to make it "invisible" of the template before saving your design as a PDF in high resolution, or you can simply delete it once the design is finished.

← Measures with bleeds included (154 x 216 mm)

← **FINAL SIZE** (148 x 210 mm)

This is the final size of the card and where the printing is cut.
To avoid white areas, we recommend that the background design and images exceed the cutting area by adding 3 mm of bleed.

← Security Zone 3 mm (142 x 204 mm)

At least 3 mm of the cutting lines.
This will prevent important parts from being lost when cutting in the guillotine.
