CARD TEMPLATE 148 x 148 mm

You can use this file as an additional layer in your design program.
Do not forget to make it "invisible" of the template before saving your
design as a PDF in high resolution, or you can simply delete it once the
design is finished.

Measure with bloods included (154 x 154 mm)

FINAL SIZE (148 x 148 mm)
This is the final size of the card and where the printing is cut.
To avoid white areas, we recommend that the background design
and images exceed the cutting area by adding 3 mm of blood.

Security Zone 3 mm (142 x 142 mm)
At least 3 mm of the cutting lines.
This will prevent important parts from being lost when cutting.

INK LAYER WHITE

Layer name White
Color as Flat Ink, name White.
Composition: 100 / 0 / 100 / 0
